ECHONIX TECHNOLOGY

Echonix technology One of the leading renewable energy developers situated in the northern part of Kerala engaged in solar EPC. Our parent company ECHO established in 1985 is a reputed firm in the Electrical and Electronics industry for the last four decades. We are a well-known company in the field of solar technology. We have a team to develop and implement advanced technologies and we always use quality products to mitigate the headache of electricity bills forever. We are always committed to developing a green power plant which will ensure a return on investment.

OUR VALUES

INTEGRITY

From small to large projects, we follow the same integrity-based approach as we want to grow with the trust of satisfied clients.

TRANSPARENCY

Anyone can experience the transparency of our services throughout the project implementation and we rate this value more than anything else.

ACCOUNTABILITY

Being a responsible energy solutions provider, we do not compromise on responsibility with a considerable focus on quality.

OUR WORK PHILOSOPHY

We approach each project with the burning requirement and pain points of the clients in mind. Instead of imposing our notions, we examine the root of why each requirement arises and with our team of experts, we find a solution that caters to our clients' needs.
